**Wine Meets Glass, their 2nd Date!: At UnQuarked Wine Room**

## Curing your glasses

1. Let your glass dry for 21 days

OR

2. Bake-to-Cure Method

Allow painted glass project to dry at least one hour. Make sure the paint is dry to the touch before baking.

Place project in a cool oven.

Set oven to 350° F and bake for 30 minutes. Turn oven off.

Allow glass project to cool down in the oven to room temperature, then remove.

Once cured, your glasses are toprack dish washer safe. To be certain, I recommend handwashing.

## **Holiday Gift Season Coming up!! Sign up now as my classes are already booking up OR Book your own SäshaStylz™ Personalized Private Parties/Catering and purchase Gift Certificates**
